WORKSHEET 01

World Seed: The Ten Considerations

Draw a seed card (or invent your own). Answer each question in one line. Rough is fine. You are finding the decisions, not making them perfect.

Team / names		World name	

Our seed	

Consideration	Question	Our one-line answer
Purpose & audience	Why does this world exist, and who is it for?	
Platform & constraints	Browser, phone, headset, PC? Seated or standing?	
Experience & verbs	What does a visitor DO in the first 60 seconds?	
Space & wayfinding	How big? What zones? What is the landmark?	
Story & lore	What happened here before the visitor arrived?	
Rules & systems	What is true here: time, weather, physics, economy?	
Look, sound & mood	Three mood words. One colour. One sound.	
Comfort & access	How do we avoid motion sickness and exclude no one?	
Culture & ethics	Whose places, symbols or stories appear? Who said yes?	
Scope & feasibility	What can we really build? What will we NOT build?	

Reflect

Which question was hardest to answer? That is where your world needs the most thinking.
